TOILE DE JOUY

Christophe-Philippe Oberkampf is the Manufacture Oberkampf's founder (1760/1843, Jouy en Josas, France) into which have been created and manufactured the TOILE DE JOUY depuis 1760 ® patterns. This talentuous business owner has revolutionized the textile industry by adapting to contemporary trends and tastes, making his Manufacture the third firm in France. He surrounded himself with the best designers, printers-engravers specialized in imagining patterns always renewed: floral, animal, romantic and mythological.

Thanks to his artistic vision, his concern of detail and colour, his attention focused on the technicality, more than 30 000 Toile de Jouy Patterns became iconic, leaving a lasting mark in textile history. For more than two and a half centuries, this French heritage feed our imaginary. With the Musée de la Toile de Jouy (France), a lot of partnerships all over the world are made, draw from this inexhaustible heritage, perpetuating tradition, authenticity, excellence, which refer to this typically French know how.

William Morris (1834-1896)

William Morris, the great designer, poet, thinker and craftsman, was also known as the father of modern design in the latter part of 19th century in England. Morris found great values in the "pleasure of craft making" and the "beauty of natural materials," and this belief of his became a movement that spread throughout the world. Before long, it reached Japan in the Taisho period as a folk craft movement. About 120 years have passed since William Morris's death, however, the "belief" that he left has been inherited wholeheartedly and his excellent designs and styles survive to this day in Morris & Co.'s interior decor, along with an aesthetic strategy. It is created continuously and distributed around the world. It seems that his quote, "Have nothing in your house that you do not know to be useful or believe to be beautiful," is still meaningful to us living in the present day.

Lisa Larson

Born in 1931 in Härlunda, in the Småland region of Sweden. She studied ceramic art at an art school in Gothenburg. After graduating, she was discovered by Stig Lindberg, and she joined the company Gustavsberg, where Lindberg was working as an art director. Larson built the golden age of Swedish ceramic art. In 1980, along with Stig Lindberg and Karin Björquist, she retired from a 26-year career at Gustavsberg as a designer representative of the company. During that time, she handled up to 300 works.

After leaving the company, and after being active as a freelancer, she opened her own ceramic studio in 1992. Collectors of her work are rapidly increasing not only in Sweden but around the world. Lisa Larson, known as the creator of "Mikey," Japan's most famous Nordic cat character, was awarded a medal by the Swedish government in 2022 for her outstanding contributions over many years to stimulating and enriching Swedish arts and crafts. She passed away on March 11, 2024.
